# ADVANTOUCH OPS 62A SPECIFICATIONS

## Wi-Fi 6

This new WLAN standard is about three times faster than its predecessor Wi-Fi 5. In addition, the new standard guarantees higher data security, improved stability and optimized range.

## USB-C

With this connection, you only need one cable for touch functionality, power, and sound and video transmission. Connecting to external devices has never been so fast, flexible and simple.

## NVMe SSD

The small storage modules are available in different versions with high data transfer rates. An M.2 SSD with NVMe interface is up to 2.5x faster than a 2.5-inch SSD with SATA interface.

## Intel® Core™ i5 Prozessor

Intel® Core™ i5 processors of the 12th generation offer remarkable performance improvements for higher productivity and immersive entertainment in 4K.
